ThingTech

Keep Your Transit Agency On Track and Moving with Transit Asset Management

ThingTech Transit Asset Management

U.S. transit agencies can lose Chapter 53 funds due to noncompliance with the TAM final rule for maintaining assets in a state-of-good-repair. ThingTech has real-world experience working with transit agencies to keep FTA-funding capital assets running efficiently. Let us help you meet compliance, maximize the life cycle and utilization of your capital assets, and streamline NTD reports for the FTA.

FEATURES

► Secure cloud-based PaaS

► Advanced data mapping

► Long-term capital planning support

► Work order automation

► Robust reporting and analytics

► Desktop and mobile applications

BENEFITS

► Easily generate and submit NTD reports directly to FTA

► Keep trains, buses, and rail transit up and running smoothly

► Optimize parts/equipment ordering to reduce the costly expense of last minute shipping and repairs

► Automating maintenance record-keeping for your fleet, facilities, equipment and infrastructure

► Manage asset inventory and condition assessments based on FTA TERM Categorization
